

Define your problem statement

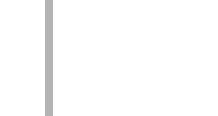

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

5 minutes

Fertilizers Recommendation System For Disease Prediction

Analyze plant diseases and suggest fertilizers to be used to the farmers

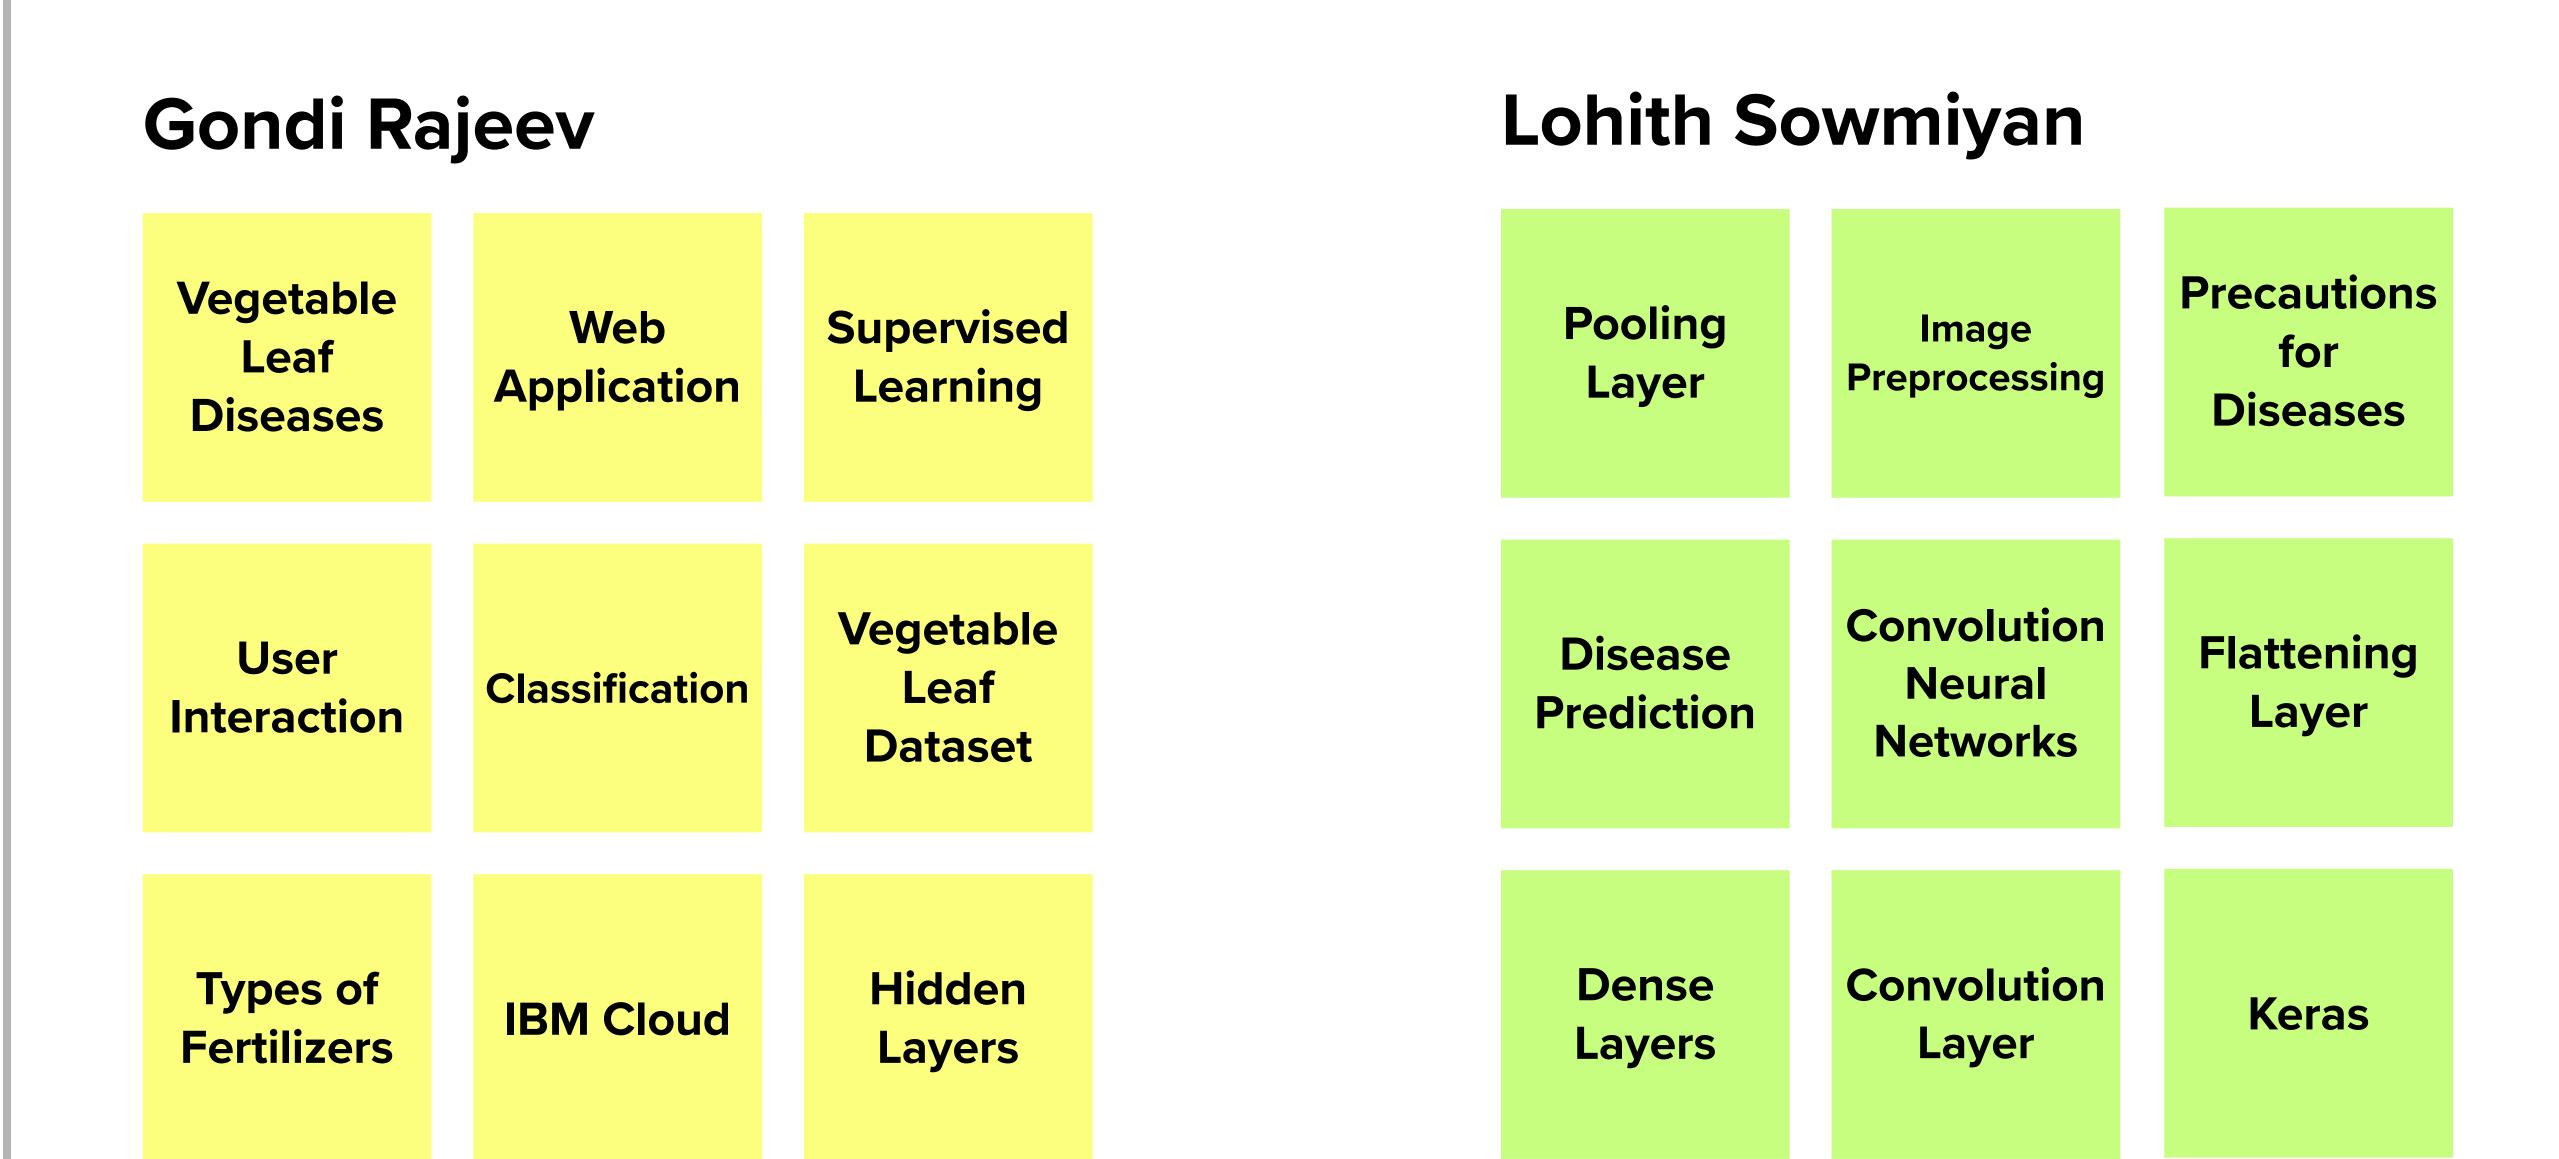

Brainstorm

Write down any ideas that come to mind that address your problem statement.

① 10 minutes

Model Deployment	Previous Research	Output Layers
Python Script for Server	Neural Networks	Model Compariso
Tensorflow	Unsupervised Learning	HTML Pages

Sairam Vaidya M

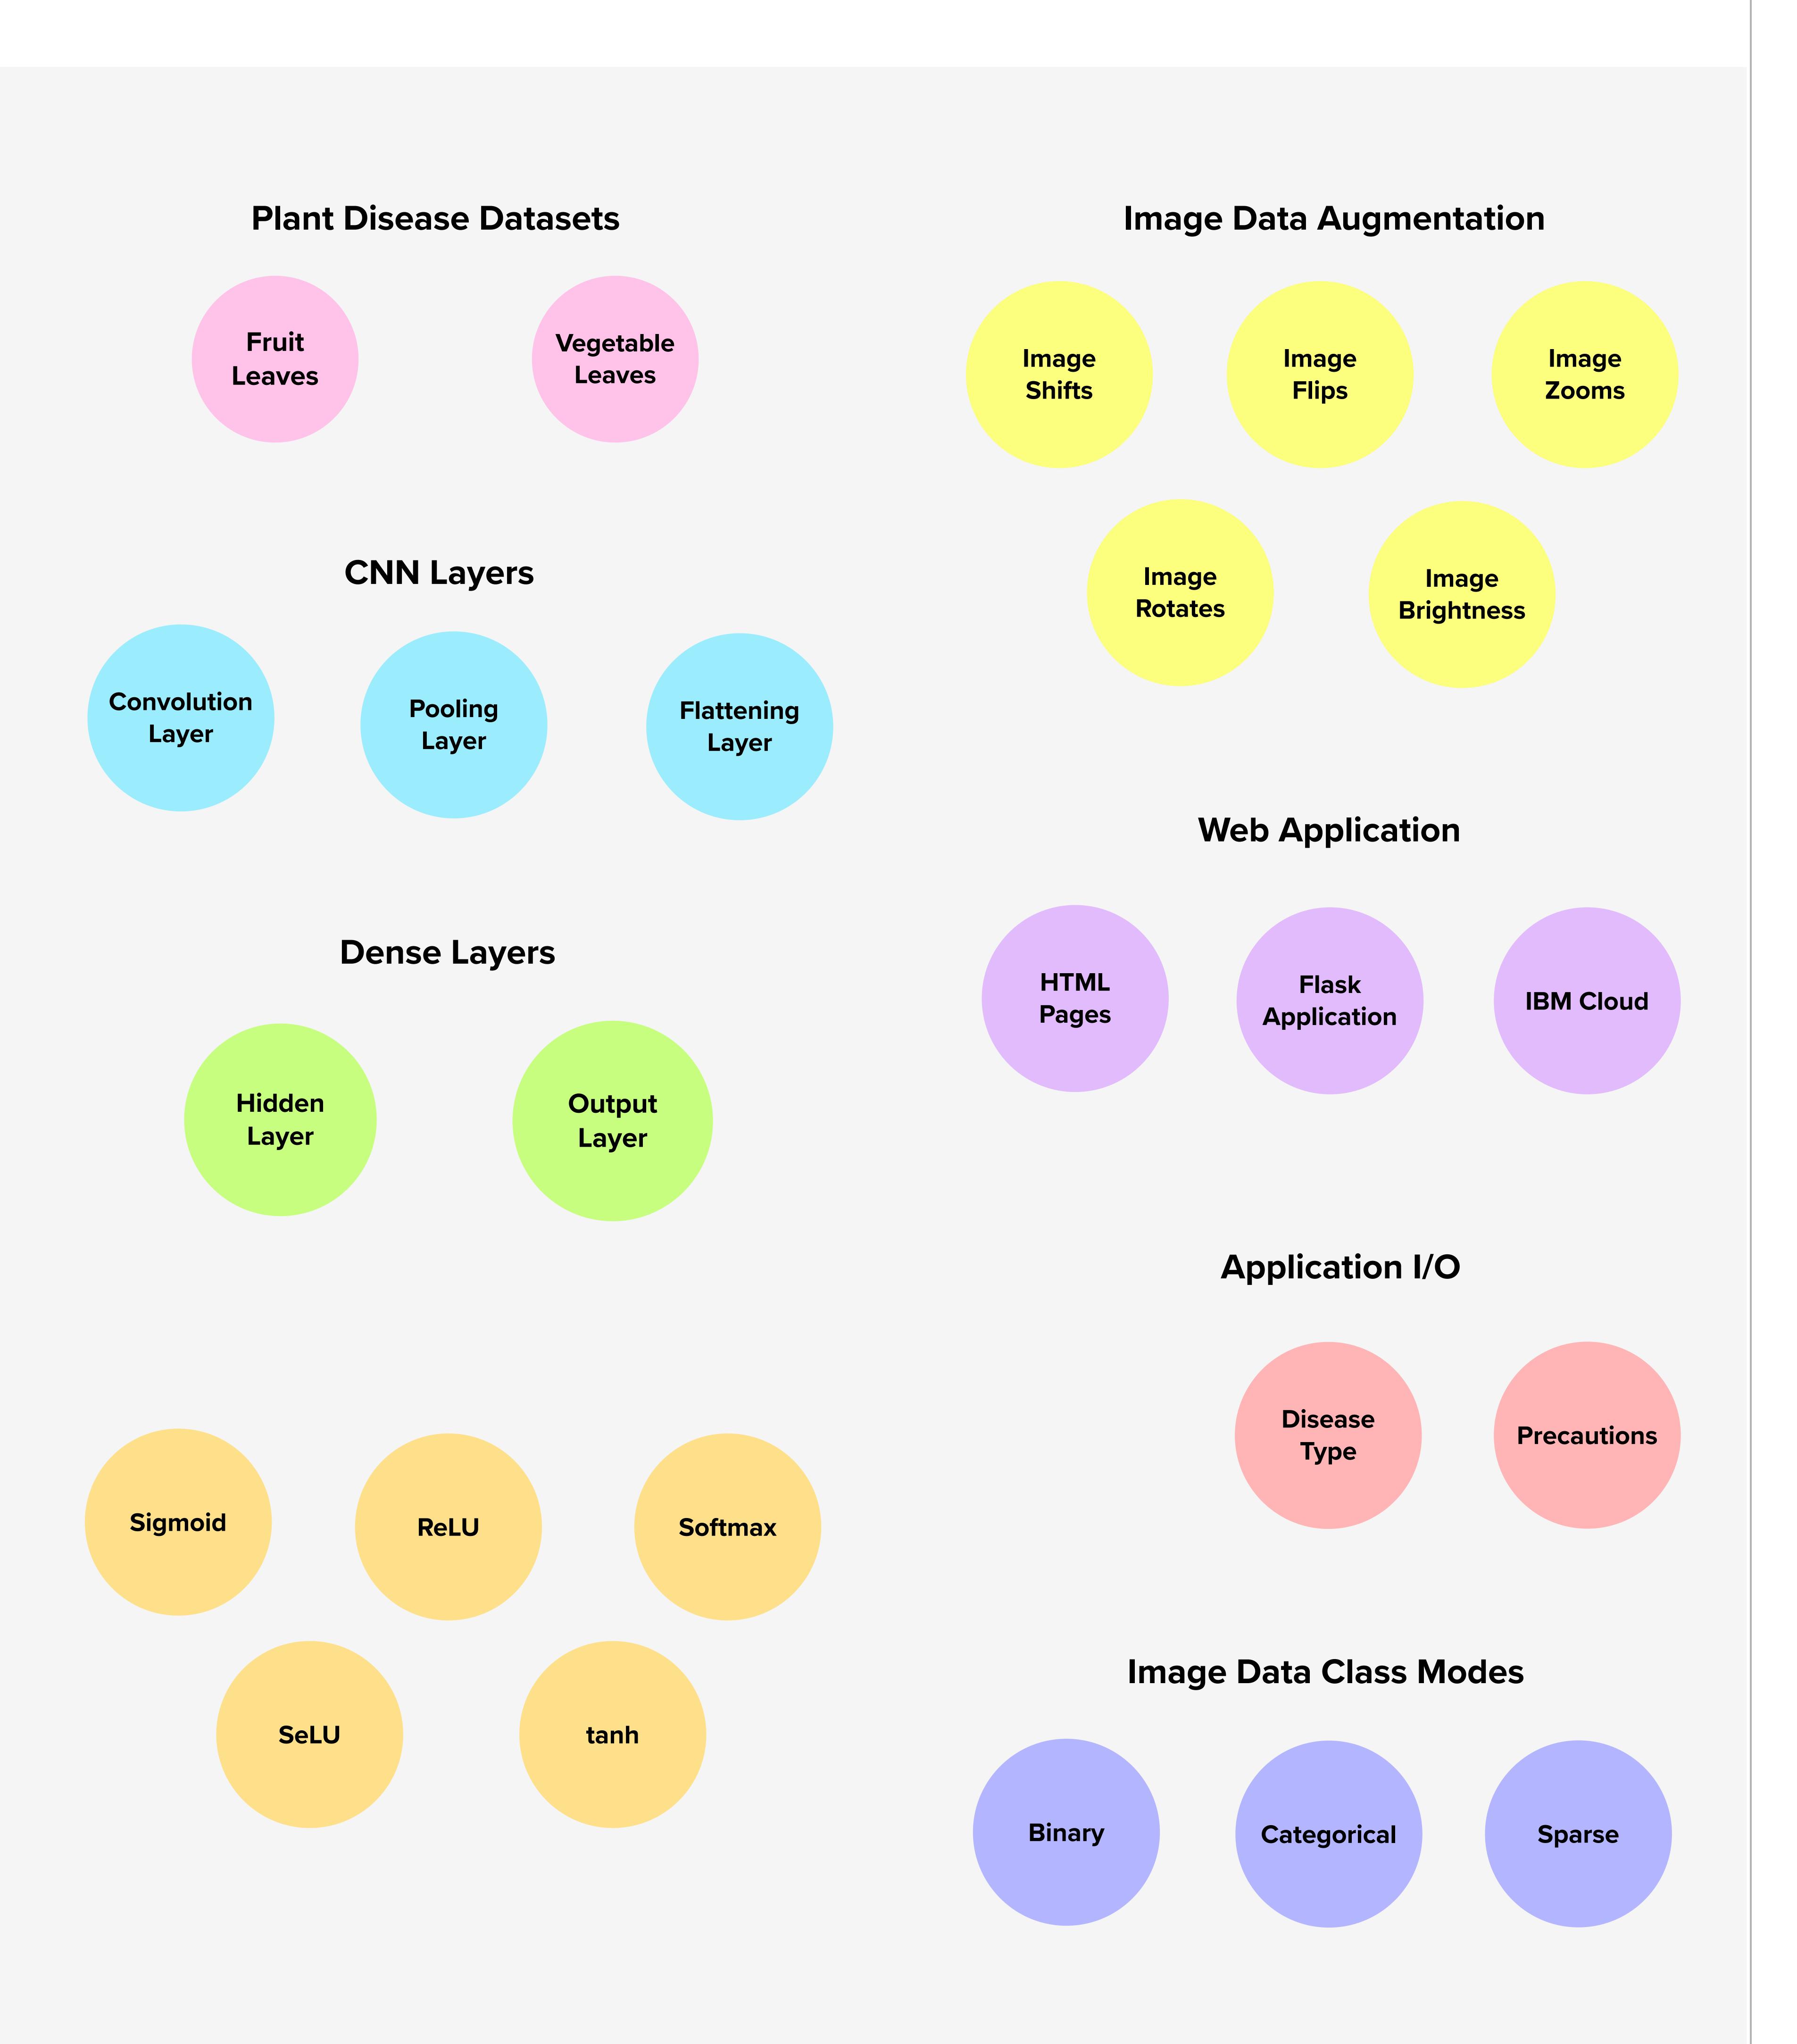

Common Diseases	Model Fitting	Fruit Leaf Dataset
Anaconda Navigator	Fruit Leaf Diseases	Artificial Neural Networks
Flask Application	Uploading Images	Detect Disease from Image

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you and break it up into smaller sub-groups.

① 20 minutes

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

① 20 minutes

asibility

gardless of their importance, which tasks are more ible than others? (Cost, time, effort, complexity, etc.)
